# Vision

---

The celebration is about facilitating a dialogue & sharing of voices of Women In Sport for the benefit of every woman and girl in **KZN** and in **South Africa**.

The campaign will champion the rights of every woman and girl to positively take part in, and benefit from sport: from the field of play to the boardroom, from early years and throughout her life.

## Objectives / Desired Outcomes

---

### Visibility of Women In Sport Achievements:

We want equal opportunities for women and girls, in sport, and in society as a whole. By increasing the visibility of women's sport, in the media and in everyday life, we will inspire people to play their part at every level and make sport normal for women and girls.

### Leading and Working in Sport:

Gender diversity at the top of organisations makes them more effective. There is a wide and varied pool of talented women actively seeking roles in sport. We will support them to work and volunteer in sport and to thrive – so sport thrives too. We also explore the challenge and statistics around why are there so few women coaches?

### Playing Sport:

Statistics show that there are more men than women playing sport every week. Women are missing out on the physical, mental and well-being benefits of sport. With our unique understanding of women's lives we work within sport to drive positive change and remove barriers.

### Wellness & Health in Sport:

We want to address a range of issues that Women In Sport are faced with, ranging from Cancer, Depression, HIV & AIDS, Gender Based Violence, Keeping Girls in Sport, LGBTI and promoting healthy lifestyle choices.
